PART-TIME COURSE

Content

Throughout this module you will develop and expand your creative awareness on how to use the design cycle to create design solutions in response to consumer requirements. The diversity of the briefs will let you develop a varied work portfolio and will introduce print, knit and menswear design in order to expand your design knowledge.

The following topics are covered:

- Trend analysis
- Design Development
- Range Planning
- Location of evidence from primary and secondary sources
- Development of creative ideas through experimental practical work
- Research skills
- Customer Profiling
- Market Analysis

Assessment

The summative assessment will take place at the end of the module when students will present work to include:

- Sketchbook of research and development
- Design development
- Customer profile
- Final designs
- Reflective commentary

Entry requirements

This type of study is designed for students who already have another BA but want to focus more on the fashion industry, or people who only want to brush up on some subjects. If you want to apply we will invite you for an interview.
